ITS LAUNCHES NETWORK SERVICE DIVISION TO MEET CUSTOMER DEMAND

Simi Valley, California – April 7, 2008 –Integrated Telemanagement Services, Inc (ITS) has created a Network Services Division to meet customer demand. ITS, a provider of complete communications solutions since 1990 has officially started a Network Services Division to focus on delivering exceptional computer networking services to small and medium businesses.

Sharon Woods, ITS President & CEO said, “Clients have been asking for us to provide them with the same “Peace of Mind” that we provide for their phone and data services to their networks and desktops. Creating this division is a natural progression in our quest to offer value and the latest technology to our Clients. ITS has a strong background in telecommunications and prides itself in keeping up with the latest technology, continually evolving the company as technology changes.”

The Network Services Division will offer various Peace of Mind plans that will meet the needs of Clients from the smallest office to a medium sized corporation. The plans will include a tiered level of services that are designed to meet the needs of all clients even if their business requires 24/7 monitoring and support. ITS, through a partnership with Streamcore, will be able to offer their customers the application management, visibility and monitoring services that before only extremely large customers had access to.

About ITS

Since 1990 ITS – Integrated Telemanagement Services, Inc., has been providing complete communication solutions to California businesses of all sizes. Headquartered in Simi Valley, the company is a leading provider of local and long distance voice, T1 Digital services for dedicated internet and private networking as well as bundled voice and internet solutions including virtual PBX and VoIP. ITS operates in a highly technical environment, offering superior service that is easily accessible, professional, live, and friendly.
