Telecom company celebrates 25 years

ITS—telecom, Internet and managed IT solutions specialists— is marking its 25th anniversary this year.

The company started in 1990, offering local businesses an alternative to the big telecom carriers.

Over the years, as technology and customers' needs changed, ITS has evolved to offer complete integrated business technology solutions encompassing all aspects of telecommunication and information technology.

Where's the story?

3 Points Mentioned

ITS is launching a new tag line—
Integrated Technology Simplified.

“Today ITS is an integrated solutions provider firmly entrenched in both the telecom and IT markets,” said Sharon Woods, president and CEO. “We simplify complex solutions so our customers can focus on their business, not the technology. We vow to stay in front of the innovation curve through leadership, strategic partnerships and new products.”

ITS is a privately held corporation, offering its services to small and medium businesses from [San Luis Obispo](#) to [San Diego](#), with corporate offices in [Simi Valley](#).

For more information, visit www.itstelecom.com or call (805) 520-7020.
